

Maths at Birchanger Primary School

Mathematics is a subject which interlinks across the whole curriculum. The children have the opportunity to learn from an enriched, exciting and varied curriculum. At Birchanger, we are steadily on the move towards developing a Mastery Curriculum for maths. As part of the children's learning, the children have their own Multiplication booklets, where they earn Bronze, Silver and Gold stickers for each times table. This is a whole school approach to enable the children to know all of their multiplication tables by the end of year 4.

We have a range of hands on resources in order to facilitate the children's learning which we are looking to enhance further in the future. Some of our Year 5/6 children have the opportunity to take part in a yearly Mathematics Challenge where they compete against other schools.
